All of our offer and equipment price include FREE SHIPPING TO U.S. and CANADA that's simple, no matter Hawaii or Alaska, just please keep your eyes on the time of Ocean or Ground traffic what give us a headache. We are working with first class freight Nationwide and International as well.
- 6. Video-, online-, onsite training:** Our goal that you can have the best service to use equipment. Get proper instructions and get more knowledge about wheel repair or tire changing. All of your orders include FREE video training and FREE 2-6 hours online training depends on machine. We adjust your training's time your level of knowledge and the equipment what you order. Onsite personal training service available in additional costs, what is depending where are you located and how long time training you need. We recommend onsite training for higher value order, pay what make sense, don't waste your money because our video and online training can cover your expectations.
- 7. Warranty service:** All of our equipment goes with minimum 1 year warranty (we are working to expand it for 2 years). If you have any issue just let us know and we will solve that as soon as we can. If you need just some of advice because no issues we'll right be with you. If you need parts, we will ship at our warehouse from Florida usually 4-6 business days or we don't have on stock we deliver it for you directly from the factory in 6-10 business days. Our equipment work reliable and if you do right maintenance and operations our equipment doesn't give you any headache just you need to keep focus on your job.
- 8. After sales and advisory service:** Thing happens with machines because being operation continuously. We never leave you alone, if you need advisory, support or just happened something maybe couple of years later, get in touch with us and we will solve it, or just need more advisory because you're in trouble to go forward. Our Team will be right with you if you only need some of advice. Just let us know.
- 9. Get to the next level:** If your business growing fast, need more equipment or need upgrade, just contact our Team and we will give you a plan how you can improve your business with the next equipment.

All together: just keep in touch with us because you're in the best hand!
